About This Report

Coach - This is just one example of a Self Scout you can create using your FastScout software. However, you can make any type of report you want by tailoring the data to whatever is important for your program or make different reports for different audiences.

On this scout, we look at a lot of percentages. What you want to compare is % of makes vs % of takes. This will give you a chance to see how efficient your players are with their decision making. We have also added a number of splits (Conference, Close Games, etc.) so you can see how players compete in different situations.

Hope it helps as you analyze how efficient your team is. Happy scouting!
